Portfolio: <https://susancat.github.io/> | LinkedIn: [linkedin.com/in/irene-zhang-970701/](https://www.linkedin.com/in/irene-zhang-970701/)

Languages: English (Fluent), Mandarin (Native), Cantonese (Fluent)

Professional Summary

Technical Project Manager with a Master's in Information Technology and PSPO-I certification. Experience coordinating complex software-hardware systems and cloud-based infrastructure initiatives in cross-functional environments. Adept at leveraging data-driven insights to align technical dependencies with business objectives across global, cross-functional teams.

Core Competencies

- Cross-Functional Leadership: Led teams of up to 10 across engineering, design, and business functions
- Technical Infrastructure: AWS-based serverless systems (Lambda, S3); exposure to CI/CD pipelines and Terraform through hands-on practice projects.
- AI & Data Analytics: RAG (Retrieval-Augmented Generation) workflows, BigQuery, Firebase, AI API Integration (UpGPT/Google). AWS Certified AI Practitioner (AIF-C01) — Expected Feb 2025
- Performance Monitoring: Sprint tracking, resource allocation, schedule optimization
- Program Management: Dependency Mapping, Resource Allocation, Risk Mitigation, SDLC Management via JIRA/Confluence.

Project Engineer | Outblaze Limited (Part-time)

Remote | Aug 2025 – Present

- Secured a development grant (750,000 AUKI token) from the [AukiLabs](#)
- Led product management for the [second phase of MOM iOS app](#) development, including game/UI flow design, backlog management, and cross-team coordination (UI/Unity development).
- Managed sprint testing and QA alignment; oversaw TestFlight/App Store releases.
- Supported go-to-market efforts (NGO partnerships, content channels) and monitored product analytics via GA4/Firebase.

Project Specialist | KingOne Interactive Ltd.

Taipei, Taiwan | Apr 2024 – Jul 2025

Coordinated and delivered 10+ technical integration projects for enterprise clients and expos. Managed cross-functional teams (up to 10) to deliver AR/VR, AI, and interactive installations.

- [3M Staff Training Center](#) Deployed RFID + simulation devices, training 1,700+ employees.
- [Everrich](#): Taiwan Intl Travel Expo – Built interactive lottery system with 3D animation engaging 360K+ attendees.
- [Shopee Brand Summit](#): Delivered projection mapping systems across SEA markets.
- Garmania: [AI Photo Booth](#) & [AI DJ Systems](#) – Integrated client AI APIs into custom hardware/software.
- [Tairoa website AI integration](#): Coordinated with UpGPT and Google Translate API to add AI search, chatbot, and multilingual features.
- Additional projects: [AR app \(Congatec\)](#), museum [kiosk systems](#), [LINE OA integration](#)..
- Product Management: [L'AiR AI SaaS Platform](#) – Implemented AI+RAG pipelines as hands-on proof-of-concept projects using AWS Lambda and FAISS.

Project Engineer | Outblaze Limited

Hong Kong / Remote | Dec 2022 – Apr 2024

- Managed [Web3 AR iOS app \(Mindful Ocean Metaverse\)](#), Coordinated cross-functional delivery of Web3 AR architecture across 5 time zones, ensuring platform stability and App Store compliance.
- Oversaw API & blockchain integration (wallets, NFTs, token systems).
- Built product documentation & compliance workflows for App Store.
- Analyzed game data (BigQuery, [Dune](#)) to improve GameFi product balance.
- Crazy Defense Heroes – Conducted on-chain/off-chain data analytics and built dashboards. Developed Discord bot for GameFi engagement.

Frontend Web Developer | Outblaze Limited

Hong Kong | Aug 2020 – Nov 2022

- Developed educational gaming prototypes [integrating Roblox and web app](#) (Virtual School Maker).
- Built and tested RESTful APIs using Postman, integrating data sources and troubleshooting requests.
- Developed high-fidelity prototype of [blockchain DApps](#) for Mindful Ocean Metaverse.
- Mentored interns.

Independent Side Projects (2025)

- [AI RAG Assistant](#) : Built retrieval-augmented generation pipeline (AWS Lambda + FAISS).
- [CI/CD Practice](#): Implemented automated pipeline for testing & deployment on AWS.
- [Terraform on AWS](#):– Built minimal Infrastructure-as-Code use case for Lambda deployment.

Education & Certifications

MSc, Information Technology | University of Glasgow, UK

PhD, Gender Studies/Political Science | Chinese University of Hong Kong

Certified Scrum Product Owner (PSPO-I), Scrum.org

Moralis Web3 Development Certification
